

A Message from Penn Medicine Princeton Health:

During this challenging time, when the health and safety of the community is our paramount concern, Princeton Health is offering existing patients of Princeton Medicine Physicians access to Penn Connected Health Virtual Visit.

A Virtual Visit allows existing patients and their Princeton Medicine Physicians provider to connect remotely either by telephone or through a secure video app, from the comfort of their home or office.

All currently scheduled appointments are being reviewed by our providers for appropriateness for a Virtual Visit. We will contact you if your appointment will be converted to a Virtual Visit.

If you are an existing patient who doesn't have a scheduled appointment and are interested in a Virtual Visit, please contact your physician's office.

For more information regarding medical eligibility, insurance coverage, and any out of pocket costs, please contact your insurance provider. Due to domestic and international healthcare regulations, eligibility for a virtual visit is based on your geographic location. Medicare recently expanded telehealth coverage that will enable beneficiaries to receive a wider range of healthcare services from their doctors without having to travel to a healthcare facility.

Also, to maximize patient safety, ExpressCare services are currently suspended. Please contact your provider to schedule an appointment.

For more information or to schedule an appointment please call 609.853.7272.
